About the Author

Belong to old Delhi. Studied in Lady Hardinge Medical College and worked in the department of anatomy till 1996, except for a brief period of one year at Maulana Azad Medical College. Was like a student throughout the teaching career; where I worked on various facets of medical education, placenta and hormone receptors. Started writing books on histology, neuroanatomy, general anatomy few years before the retirement.

A *divine gift* of editing BD Chaurasia's Human Anatomy was given to me by Mr SK Jain CMD of CBS Publishers and Distributors, three months before my retirement. This *ultragerous gift* did not let me retire from anatomy and resulted in 4th edition of BDC Human Anatomy in 2004 after 8 years of dedicated work. It has recently been translated into Persian language. These volumes gave me incentive to do more books on anatomy including some for the nursing students. Videos on anatomy was my dream for about three decades which Almighty fulfilled during my short term job at Kathmandu University, School of Medical Sciences, Dhulikhel, Nepal. These are put as CDs' in each of the volume of BD Chaurasia's Human Anatomy. An attempt has been made to hold on to the reputation of this great book for last 20 years. Hopefully should continue to do the same till God's wishes.

To me writing, editing of anatomy books is like prayer and meditation. Almighty has been graciously generous and guides me along the righteous path. Few poems have also been penned, all eventually become a part of the volumes of BD Chaurasia's book.
